SKILLS

JavaScript: Deep understanding of the JavaScript programming language, including syntax, object-oriented programming, and interaction with web page elements.

HTML and CSS: Proficiency in creating the structure and styling of web pages using HTML markup language and CSS.

React: Experience in developing interactive and efficient user interfaces using the React library.

Git: Knowledge of the Git version control system for effective project management and collaboration.

SASS: Proficiency in using the SASS preprocessor to enhance CSS workflow, including variables, mixins, and nested styles.

Redux: Experience in utilizing the Redux library for state management in Flux architecture-based applications.

Material UI: Knowledge and utilization of the Material UI library for creating stylish and intuitive interfaces.

Webpack: Understanding the concepts and experience in using Webpack for bundling and packaging web projects.

Communication Skills: Ability to effectively communicate with team members and understand project requirements.

Analytical Skills: Ability to analyze complex tasks, identify problems, and find effective solutions.

WORK EXPERIENCE

Trainee Frontend Developer

Digicode   2023-2023

- Assisted in the development of web applications, collaborating with senior developers to implement features and functionalities.
- Gained practical experience in working with modern frontend technologies such as JavaScript, HTML, CSS, React, and Git.
- Participated in code reviews and bug fixing to ensure the quality and performance of the applications.
- Contributed to the optimization and improvement of user interfaces, enhancing the overall user experience.
- Actively engaged in team meetings and discussions, actively learning from experienced professionals and applying their guidance to improve skills and knowledge in frontend development.

During my internship, I had the opportunity to apply theoretical knowledge to real-world projects, further developing my skills and understanding of frontend development practices. The experience provided me with valuable insights into the industry and reinforced my passion for pursuing a career in frontend development.

EDUCATION

Bachelor's degree

Poltava State Agrarian University   2018-2022

- Faculty: Accounting and Taxation
- Bachelor's degree

Master's Degree

Poltava State Agrarian University   2022-2023

- Faculty: Accounting and Taxation

Master's Degree

Poltava State Agrarian University   2023-2024

- Faculty: Information Systems and Technologies
- Expected Master's degree (in 2024)

Note: It is important to note that the information about the second Master's degree is speculative, as admission to the Master's program is planned for the autumn.

IVANKO ARTEM

FRONTEND DEVELOPER

OBJECTIVE

I am a young and ambitious Junior Frontend developer with a deep understanding of JavaScript, HTML, and CSS. I have experience working at Digicode, where I was involved in web application development. My skills include working with React, Git, SASS, and other modern tools.

I have a strong desire to grow in the field of frontend development and strive to work on exciting projects where I can apply my knowledge and creativity. My strengths include confidence in my abilities, patience, and good communication skills.

My goals are to gain experience and continue improving my skills by working with a team of talented professionals. I aspire to become an experienced Frontend developer and contribute to the creation of innovative web applications.

I am seeking opportunities to grow in a stable company where I can learn from experienced professionals and contribute to exciting projects. My dedication to continuous self-improvement and adherence to the principles of DRY, SOLID, YAGNI, and KISS help me create high-quality code.
